P R E F A C E.

For the purpose of enabling customers to form a more correct idea of what I manufacture, I have had a full assortment of my leading articles engraved, copies of which will be found in this book. Each article is numbered, and those ordering should use corresponding numbers and names; and when finished in different colors, and upholstered in different goods, or made of different kinds of wood, to state which kind is wanted.

The numbers in this book will correspond with my *Price List*, which I publish from time to time, but should there be any articles in this catalogue of which, in the course of time, no corresponding number, with description, appears in my *Price List*, then it may be understood that these articles are not manufactured by me any more, and likewise all *new* numbers that may at any time appear in my price list, and not found in this book, will designate new patterns.

Being a practical Mechanic, the work is made under my own supervision, at my Factory. With increased facilities, and my determination to produce and sell my goods considering quality as cheap as any other house in the trade, I solicit a share of your patronage, confident that I shall merit your favors, and promising my best endeavors to give entire satisfaction.

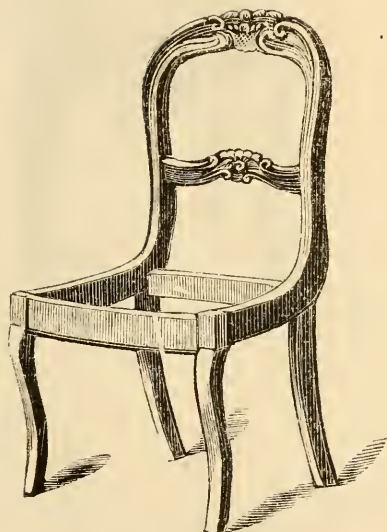

I would call attention to the following catalogue of Parlor Furniture, and to the fact that all my Parlor Work is upholstered in first-class style. The best Pawtucket Hair Cloth only is used, and the Terrys used are all wool, of English and French manufacture. I use no imitation Hair Cloth, and the gimps and trimmings are the best.

The frames for all these goods are now manufactured in my new Factory at Brooklyn, and are warranted, if not superior, but as well made and finished as any of them made in this city.

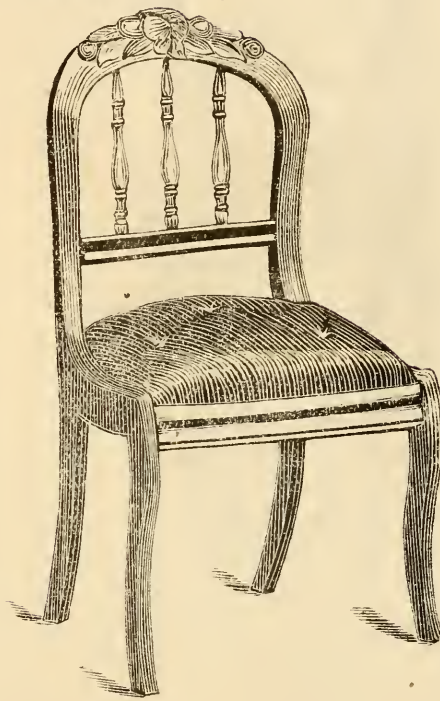

J. W. HAMBURGER.
